## A Cremation Service Started By Veterinarians

VHA's cremation services were started by veterinarians to provide a dignified, clean, reliable, and respectful method of handling deceased pets. We strive to provide you a quality service that you can rely on. Multiple checkpoint systems are in place to ensure that pets are cremated exactly to the client's wishes. We have offered this service to hundreds of veterinary hospitals since 1986. We developed this service to help you, the clinic, to provide a smooth process for your clients.

Veterinary Hospitals Association is a proud member of the International Association of Pet Cemeteries and Crematories.

## Dignified and Caring Service for Your Clients

When your clients lose a pet companion, they deserve the highest level of compassion, service, and care. As their trusted experts and doctors, your customers are looking for the appropriate levels of respect and service for the final care that their devoted pet deserves. The care and sensitivity exhibited by VHA is an important part of our pet cremation services.

For more than 35 years, VHA has provided a dignified, caring, and reliable cremation service, owned and supervised by member veterinarians. This service allows veterinarians to transition their clients through the loss of their pet. VHA recognizes that pets are members of the family, and the loss of a pet can be very difficult. Our multiple checkpoint system ensures that the cremation of each animal meets the owner's wishes.

# *Glass Remembrance*

# GLASS REMEMBRANCE

These glass memorial keepsakes are hand blown and sculpted in the United States by artists. Molten glass is at temperatures over 2000° F which is a higher temperature than most cremation processes. When the glass is molten, the cremains are carefully incorporated into the glass. Since glass is at a higher temperature than the cremains, the carbon is burned off and the cremains turn a brilliant white color within the glass.

All Glass memorials & jewelry add S/H & etching charges      Remaining ashes are in a cardboard box
